## DETAILED ACTION

### *Response to Amendment*

1. The amendment filed on December 30, 2003 has been entered and new claims 22-25 have been added.

## EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jack Friedman on 4/12/2004.

The application has been amended as follows: **Cancel claims 9-21.**

### *Allowable Subject Matter*

3. Claims 1-4, 7, 8 and 22-25 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose the device structure as recited in independent claim 1. Specifically, the references of record do not teach or fairly suggest a fuse structure embedded within an interior portion of a substrate and in direct mechanical contact with an etch resistant layer having a slower etch rate than an insulative layer disposed directly above it. For these reasons claim 1, is deemed to be allowable over prior art and claims 2-4, 7, 8 and 22-25 are allowable by dependency.

Art Unit: 2826

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. Sefer whose telephone number is (571) 272-1921.
